

£683,000 vital funding for East Midlands churches

16/06/2011

The money comes from the Repair Grants for Places of Worship scheme*, which is now funded by HLF and administered by English Heritage.

The grants are offering much needed funds to the East Midlands' places of worship at risk including the Serbian Orthodox Church of St George, Leicester; Greek Orthodox Church of the Virgin Mary, Nottingham; Church of St John, Alkington, Derbyshire; Christ Church, High Peak; Church of St Martin, West Lindsey; United Reformed Church, Ashfield; and Church of St Katherine, Rowsley.

The Bishop of London, Dr. Richard Chartres, said: "This is extremely welcome news. Congregations across the UK are the custodians of some of our most important historic buildings and while they provide much joy and inspiration, maintaining them is a heavy financial burden. This vital investment from the Heritage Lottery Fund delivered with the benefit of English Heritage's conservation expertise, means that local people can continue to safeguard these precious places."

Emma Sayer, Head of HLF in the East Midlands, said: "Historic places of worship are an irreplaceable part of the East Midlands' heritage and sit at the very heart of our local communities. Both the Heritage Lottery Fund and English Heritage are delighted that in these difficult times, these vital repairs can still be done, ensuring these wonderful places are secured for future generations."

Anthony Streeten, English Heritage Planning Director for the East Midlands, said: "Thanks to the generosity of the Heritage Lottery Fund, and ultimately Lottery players, this is a real boost for the efforts of local people who look after the nation's heritage. With our expertise and with the benefit of more local fund-raising we know that 'a stitch in time' will prevent the potentially catastrophic deterioration of these fine listed places of worship."

Serbian Orthodox Church of St George - Leicester

Grant: £106,000

Built in 1823-27 by William Parsons and located in the centre of the city of Leicester, St George's church was the first church to be built in the city since the Reformation. The chancel was built in 1879 by Sir A. Blomfield and following a fire in 1911, the church was restored by W D Caroe. This £106,000 grant will go towards vital repairs including restoring the roof coverings of the south nave and aisle slopes, the south west antechamber and the Lady Chapel roofs.

Greek Orthodox Church of the Virgin Mary 'Eleousa' - New Lenton, Nottingham

Grant amount: £109,000

A former congregational church and now a Greek Orthodox Church, the Church of the Virgin Mary 'Eleousa' was built in 1880 in the Perpendicular Revival style. This late Victorian urban brick church is home to a host of important architectural features including a tall nave and north/south aisles. This £109,000 grant will enable essential restoration works to go ahead including re-slating the large nave roof.

Making a difference

Today, it has been announced that a total of £8million has been awarded to 67 Grade II listed churches, chapels and synagogues across the country. Since 2002, HLF and English Heritage have worked together to award almost £200 million to help repair more than 2,000 listed places of worship, the largest single source

of funds to help congregations care for their buildings.

Note to editors

The Repair Grants for Places of Worship in England Scheme is funded by the Heritage Lottery Fund (HLF) and administered by English Heritage on behalf of both organisations. English Heritage gives some funding to Grade I and Grade II places of worship.

Until 2010, the scheme was jointly funded by HLF and English Heritage. As a result of Comprehensive Spending Review in October 2010, English Heritage's budget was cut and it was unable to continue funding the scheme. In 2011, HLF agreed to provide an additional £9million needed to ensure the scheme is protected in its current form until 2013.

HLF is committed to supporting the urgent repair needs for places of worship and will fully fund the repairs scheme from 2013. HLF launched a three month consultation at the end of January 2011, inviting views on how best to help urgent repairs for places of worship. The consultation closed on 26th April 2011 and we are now considering the views expressed in the large volume of responses. HLF's strategy on funding places of worship will be announced in due course.

Listed places of worship in England of all denominations and faiths are eligible for grants which support urgent repairs to the fabric of the building with a focus on projects costing less than £250,000. There is a two-stage application process with development funding available at Stage One to help work up proposals.

To be eligible for the next round of funding, applicants need to apply by 30th June for Grade I and II* and 30th September for Grade II listed places of worship.

English Heritage

English Heritage is the Government's statutory advisor on the historic environment. It provides advice on how best to conserve England's heritage for the benefit of everyone. While most of England's heritage is in private hands, it works with all who come into contact with it - landowners, businesses, planners and developers, national, regional and local government, the Third Sector, local communities and the general public - to help them understand, value, care for and enjoy England's historic environment.

It is also entrusted with the custodianship of over 400 sites and monuments which together form the national collection of built and archaeological heritage. These include some of the most important monuments of human history such as Stonehenge and Hadrian's Wall. Visit the [English Heritage website](#).
